HOW IT WORKS

Visitor management has never been easier

✓ **VISITORS SIGN IN USING THE KIOSK:**

Visitors, contractors and couriers enter their details and select the person they are visiting using the intuitive VMC solution. Their details, acknowledgment of terms of entry, and photograph are captured and a visitor badge is then printed. Hosts can speed this process up even further by pre-registering groups, and staff can quickly sign in with a QR code through the app.

✓ **HOSTS NOTIFIED OF VISITOR ARRIVAL**

Hosts receive an email or SMS notification alerting them that their guest has arrived. Visitors are then greeted by their host, while the solution keeps track of who is onsite, where, and for how long.

✓ **ALL DATA IS CAPTURED**

Gain a full insight into all staff, visitor, contractor, and delivery activities happening on the premises, along with capturing required Terms of Entry acknowledgments. The information is available for compliance and OH&S management and reporting.

BENEFITS

So much to enjoy about Visitor Manager Central

MANAGE HEALTH SCREENING & IMPROVE OH&S COMPLIANCE

Incorporate Health Screening and streamline OH&S compliance to better manage the safety of visitors and staff. Customise questions into your sign-in workflow and perform different actions depending on the response. Capture visitor acknowledgement and activate compliance workflow management through alerts, terms and conditions of entry, induction policies, documents or videos.

ENJOY BETTER SECURITY

Always know exactly who, where and why a visitor is onsite at all times with a digital record of anyone entering or exiting your premises. In addition, guests are easily identifiable through instant Photo ID Labels which display their name, photo and reason for visiting.

CONTACTLESS SIGNIN & PRE-REGISTER GROUP BOOKINGS

Streamline group arrivals and enhance the sign-in experience by pre-registering visitors. Guests then simply scan in contactlessly using their pre-received QR code saving precious time on arrival.

CREATE BETTER FIRST IMPRESSIONS

Wow your guests with a smart and professional custom designed iPad kiosk. The user friendly solution welcomes guests with a modern and easy to use sign-in process.

REDUCE OPERATION COSTS

Free up staff from manual, tedious tasks with a cost-efficient digital visitor management solution, and save costs on purchasing & storing paper-based visitor ledgers too.

COMPANION APP

Keep staff in the loop with the mobile app, allowing them to sign-in and out, receive arriving visitors notifications and emergency situation alerts.

CUSTOMISE EACH KIOSK & REINFORCE YOUR BRAND

Customise your interface to suit your company brand, updating the look and feel in just a few minutes. Even create varied profiles, information capture and workflows specific to each location. What's more, add as many different sign-in workflows with their own individual conditions of entry, custom fields and questions to capture the exact data needed.

MANAGE EMERGENCY EVACUATIONS

Improve risk mitigation with instant emergency notifications. Send emergency alerts via email and SMS with one click and easily contact specific safety personnel should their assistance be required.

VIRTUAL KIOSKS

Guests can scan a QR code using their phone and be presented with a virtual kiosk to facilitate sign-in.

CONTRACTOR MANAGEMENT & VALIDATION

Protect your business with automatic validation of contractor credentials, licenses and certificates, by linking to local or external Contractor Management Systems, such as LinkSafe. Integrate directly for real-time checks.

SEND INSTANT NOTIFICATIONS

Connect and alert people faster. Be informed of guest arrivals as soon as they sign in. The instant email and SMS notifications ensures you're in the know in real time.

> " The solution has created a really professional and impressive front desk experience for our visitors. "
